Frontend Developer

Skilled Frontend Developer proficient in Java, JavaScript, SQL, HTML/CSS and EJS. Specializing in React.js, Redux, Express, Node.js, and Next.js, with expertise in building dynamic, responsive web apps. Experienced in MongoDB, SQL, Git, GitHub, Docker, VS Code, and Chrome Dev Tools. Proficient in Prisma ORM for efficient data management.

Education

Kiet Group Of Institution   **Nov 2021 – Jun 2025**
B.tech in Computer Science   *Ghaziabad, UttarPradesh*
CGPA : 7.74

Professional Experience

Freelance Web Developer   **Feb 2022 – Present**
Front End Developer   *Ghaziabad, UttarPradesh*

- Mastered Redux for efficient state management and executed numerous freelance projects, highlighting skills in React, MongoDB, Express, and Node.js. Delivered 3+ major and 4+ minor projects, emphasizing a dedication to high-quality solutions.
- Enhanced MERN stack projects by implementing 3 login features: JWT, Google Authentication, and Auth0, ensuring robust security and access control, while also optimizing scalability for efficient request handling.

Projects

MemoirMoments | React. js, Redux, Express,MongoDB, googleAuth, Git   **Source Code**

- Implemented engaging features for sharing personal memories and fostering active user interaction, including 'like' count and comment functionalities.
- Integrated CRUD (Create, Read, Update, Delete) operations for user-generated posts, giving users the ability to efficiently manage and curate their content.
- Enhanced platform security and user convenience by implementing Google Authentication, streamlining the user registration and login processes.

WriteWell | Node/Express, React , Redux, MongoDB , JWT   **Source Code**

- Enabled users to create and edit notes using a Markdown language editor with a 100% reduction in scattered paper note usage.
- Developed functionality for users to manage their profiles, including options to edit passwords and personal details.

ShopHere | Reactjs, Redux, ContextApi , Auth0 , Git   **Source Code**

- Developed a robust shopping website with 1000+ products, featuring 4+ advanced filters for precise searches by price range, category, color, and company, along with a user-friendly search feature.
- Engineered an intuitive shopping cart system, empowering users to effortlessly perform 3 critical functions: adding, subtracting, and deleting products, all while ensuring real-time automatic subtotal updates.

Technical Skills

Languages: Java, JavaScript, SQL, C, Html, Css, Ejs
Libraries / Frameworks: React Js, Redux, React Router, Express, Node Js, Next Js, Tailwind, Bootstrap
Databases: MongoDB, SQL
Developer Tools: Git, GitHub, Docker, Vs Code, Chrome Dev Tools, React Developer Tools, Canva, Atom
ORM: Prisma

Leadership / Extracurricular

- Participated in 3+ Model United Nations (MUNs) and was acknowledged with distinction as a Special Mention Recipient at KIET MUN 2023. This recognition showcases my excellence in diplomacy and communication.
